## Jumping Off the Fence

Many potential home buyers have decided now is a good time to buy, as indicated by recent rising home sales. Record affordability, low mortgage and interest rates as well as an \$8,000 tax credit for first-time buyers has created the most favorable buying conditions in recent memory and have proven irresistible to those in the

market to buy a home.

According to NAR's most recent metro price and state sales report, existing-home sales in Nevada are up over 116 percent from last year. Sales in California rose more than 80 percent from one year ago, Arizona sales were up over 50 percent, and Florida saw a 25 percent increase in home sales, year over year.

So whether you are a first

time home buyer, looking to upgrade or downsize, or just looking for that vacation home, stop by and let a Mountain Home Real Estate Company Agent help you through the process.
